Education

University of the Philippines - Los Baños Expected Graduation: June 2027
Bachelor of Science in Computer Science *Los Baños, Laguna*

Experience

Frontend Lead / CEO Feb 2026 – Present
Kubo (kubo.community, facebook.com/findkubo) *Remote*

- Led a **7-person team** as Kubo's initial frontend lead; became CEO in May 2026 and shifted product focus toward mobile after **3,000 website visits**.
- Interview and onboard dorm owners, translate feedback into product priorities, and develop TypeScript interfaces across **4 apps** (student web, management web, admin, and React Native mobile).
- Spearheading the operation of Kubo as its CEO from May 2026 to now, solving real-world problems for over **40+ clients**, from onboarding, feature development, product roadmap, QA/testing, and deployment.

AI Software Developer Intern May 2026 – October 2026
TenX Development *Remote*

- Designed **3** repeatable AI-agent evaluation scenarios for back-office operations, connector extraction, and skill authoring; analyzed model-run transcripts across Qwen and DeepSeek variants.
- Built and debugged TypeScript/JavaScript features across model inference, mission workflows, and desktop UI; hardened setup verification for **5** integrations (Slack, Discord, LINE, WhatsApp, Viber) with regression tests.
- Ran live QA across **3** media types, measuring image dimensions, validating a **2-minute** audio clip and **720p** video, and reconciling Kizuna playbook findings with current issue status.

Founder & Sole Developer Jan 2025 – Jan 2026
Hatagi (hatagi.zatro.dev) *Remote*

- Architected a microservices fundraising platform (Go, Nuxt, Docker) for direct-to-bank donations without intermediary fees.
- Built an OCR-assisted reconciliation system to pre-validate receipts for GCash and **Solana** payments, streamlining manual verification.
- Reworked CI/CD around prebuilt artifacts and Git submodules, preventing VPS memory crashes and reducing deployment time by **90%+**.
- Built a **zero-egress** adaptive HLS video pipeline with self-hosted FFmpeg and Cloudflare R2, replacing managed streaming services.

Frontend Lead Jan 2026 – Mar 2026
YSES Week (expe21ence.yses.org) *Remote*

- Led frontend development for the annual YSES event platform, supporting registration for over **315** attendees.
- Built interactive UI components with managed state and CSS animation while preventing invalid user interaction states.

Frontend Lead Nov 2025 - Jan 2026
YSEIS *Remote*

- Led **7 developers** through delivery, delegating work and reviewing code across the software lifecycle.
- Built responsive admin and user dashboards from wireframes, applying **MVVM** to separate interface and presentation logic.

Flutter Developer Consultant Oct 2025
QE-360 *Remote*

- Resolved **9** UI and business-logic issues, including date-picker state and messaging-data persistence bugs.
- Added strict input validation for edge cases including emoji input, integer overflow, and whitespace bypasses.

Technical Skills

Languages	JavaScript (ES6+), TypeScript, Go, Kotlin, Dart, Rust, SQL
Frontend	React, React Native, SvelteKit, Vue, Nuxt, Tailwind CSS
Tools & Platforms	Git, Expo, TanStack Query, Docker, PostgreSQL, Linux, Mistral OCR
